Raw Gaia Living Facial

Living facials are one of life's true luxuries, in our humble opinion!

We use Raw Gaia's raw, living, natural vegan organic skincare products in our signature Living Facial treatment ~ you will awaken to glowing skin which feels beautifully quenched, leaving us with a deep feeling of blissfulness surrounding you, coming from within.

Your divine treatment will begin by a thorough cleansing and toning routine using Raw Gaia's "Living" cleanser and toner, which are oil-based and extremely gentle, suitable for all skin-types. We use only warm muslin cloths to open your pores before applying your chosen face mask – the hot favourite is always the 'raw chocolate' mask – and while you snooze, your delicate eye area is nourished by Raw Gaia Revitalising Eye Oil, with cool marble heart-stones gently blocking out the light. While your face mask weaves its natural magic you will receive a natural foot scrub treatment, followed by a lavish application of peppermint foot butter to nourish your tootsies.

After a gentle exfoliation treatment you will receive a revitalising and toning facial massage using special techniques and gentle neck-stretches to leave you feeling uplifted and truly cosseted. Your choice of one of Raw Gaia's cold-pressed oil moisturisers will be applied as the massage medium, leaving your skin soft, supple and glowing with vibrant, natural energy.

Raw Gaia is the world's first range of living skin care products made using only cold-pressed, organic and vegan ingredients, infused with essential oils and floral waters of the finest quality. Their products have wonderful skin moisturising and uplifting qualities because they are absolutely pure, alive and made with the Earth's most nourishing and beautifying skin care ingredients, which are far more gentle than any chemical or artificial moisturisers, as well as being very effective and affordable.

Why do we choose to use Raw Gaia products?

Well, we love their simplicity, their ethos and their price! We appreciate their full range of family-friendly of products — keep your skincare range (and routine) simple: it makes life so much easier!

If you are interested in crystals and how they help your body's innate natural healing processes, Callie will gladly incorporate them into your facial.
